Forthcoming: Rem B. Edwards, *The Essentials of Formal Axiology*. Lanham, MD: University Press of America, 2010.

This book is written to introduce and explain the most basic features of Hartmanian formal axiology. It will be of special interest not only to persons interested in value theory as such but also to those who want to understand the theory that underlies its applications like the Hartman Value Profile. It can be used as a text both in college courses in value theory but also in training seminars for the HVP. Just what it covers will be shown in the following Table of Contents.

This book will be available in October of 2010. We expect to have copies of it for sale at our Annual Conference in Knoxville, TN, October 28-29. If you cannot attend the conference but wish to purchase a copy, you may order it either from the Hartman Institute itself or from the publisher. More ordering information will be made available as soon as the book is actually published. All proceeds from the book will go directly to the Hartman Institute.

CONTENTS

PREFACE vii

ONE The Form of the Good 1
1. What "Good"Means 2
2. Degrees of Goodness 6
3. The Meaning of "Bad" 7
4. Philosophical Exposition 10
A. G. E. Moore and the Meaning of "Good" 10
B. Hartman's Formal Definition of "Good" The Axiom of Axiology 12
C. "Good" vs. "Value" 15
D. Intensional and Extensional Properties 16
E. Definitional and Expositional Properties 17
F. "Better" and "Best" 20
G. Comparing Apples, Oranges, and Devils 22
H. "Good" and "Good for" 24

TWO What Things are Good and Better? 27
1. Three Kinds of Good Things or Values 28
2. Applying the Form of the Good to Good Things 31
A. Systemically Good Things 32
B. Extrinsically Good Things 35
C. Intrinsically Good Things 37
3. Ranking and Combining Good Things 39
A. Ranking Good Things: The Hierarchy of Value 40
B. Combining Good Things 41

4. Philosophical Exposition 43
A. Deriving the Three Dimensions of Value 43
B. Justifying the Hierarchy of Value 45
C. Uniqueness and Human Worth 49
D. Uniqueness and Individual Worth 56
E. Self-concepts and Individual Intrinsic Worth 61
F. Infinities: The Second Formality 67
i. Numbering the Value Dimensions 68
ii. Why Transfinite Math Will Not Work 70
iii. Hartman's Faulty "Proofs of The Infinite Value of Man" 76
iv. Refuting Hartman's Own Reply 80
G. Axiology as a Future Science 82
i. What is Real Science? 83
ii. Where Do We Go From Here? 85

THREE How We Value: Systemic, Extrinsic, and Intrinsic Valuation 89
1. Conceptual or Rational Valuation 90
2. Active or Dynamic Valuation 90
3. Affective Valuation in Three Dimensions 92
A. Affective Systemic Valuation 95
B. Affective Extrinsic Valuation 97
C. Affectve Intrinsic Valuation 102
D. Complete Intrinsic Valuation 105
4. Combining Values and Valuations 107
A. Systemically Evaluating Everything in All Dimensions 110
i. Applying Systemic Concepts in Three Dimensions 110
ii. Responding Disinterestedly or Dispassionately in Three Dimensions 116
B. Extrinsically Evaluating Everything in All Dimensions 117
i. Applying Extrinsic Concepts in Three Dimensions 117
ii. Responding with Practical Feelings in Three Dimensions 120
C. Intrinsically Evaluating Everything in Three Dimensions 121
i. Applying Intrinsic Concepts in Three Dimensions 121
ii. Responding with Intrinsic Feelings in Three Dimensions 125
D. Living Abundantly 129

FOUR Ethics and Other Applications 131
1. Hartman's Understanding of "Ethics" 132
2. The Meaning of "Ought" 134

3. Applying Intrinsic Concepts to Unique Persons 135
A. Self-concepts and Time 136
B. Screwed-up Self Concepts 139
C. Thinking Ethically about Others 141
4. Acting Upon Self and Others as Unique Persons 143
A. Moral Rights 145
B. Moral Rules, Exceptions, Conflicts, and Supererogation 148
I. The Value of Moral Rules 148
ii. Making Exceptions to Moral Rules 149
iii. Conflicting Moral Rules 152
iv. Supererogation: Going Beyond the Call of Duty 152
C. Ethics in Three Dimensions 155
D. Moral and Non-moral Virtues 156
E. Moral Virtues, Motives, and Attitudes 165
F. Moral Absolutes 168
5. Aesthetics, Religion, Psychology, and Other Applications 171
A. Axiology and Aesthetics 172
B. Axiology and Religion 173
C. Axiology and Psychology 174
D. Developing an Axiological Calculus 175
E. Sports Axiology 176
F. Future Applications 176

Appendix: Axiological Glossary 177
